**You are playing in a free contest for prizes. You are not placing bets or wagers with real money.**

## General Concept:

Place wagers on NFL, NCAA Football, NBA, NCAA Basketball, NHL, and MLB using fantasy money and win prizes/rewards. Unlike real sports wagering, with fantasy sports wagering, winning is your only option.

## Wager Offerings You're Not Used to Seeing:

Ever wanted to place a 10 play 14 point teaser, but had no one to take it? Well, now you do. With GameDay Payoff's fantasy sports wagering, there's really not much you can't do.

- 1) Straight (spreads, totals, money lines)
- 2) Parlays (2 - 25 plays)
- 3) Teasers (2 - 25 plays with 3 - 21 points)
- 4) Pleasers (2 - 25 plays with 3 - 21 points). Pleasers are like teasers, but the points work against you. The appeal is in the payouts. They're huge!
- 5) Action Points (1 - 100 point range). The amount wagered is for every point within your chosen point range. Things can go phenomenally well very quick or downhill fast.
- 6) Buying Points (1/2 - 3 points) or Money Lines for all wagers listed above. Now, there's something you don't see every day.

## Unlike Real Life, You're Never Out of It:

Regardless of the contests available, you get \$500 to wager with every single day, in addition to your winnings. So if you put everything you have on 1 game and lose it, that's ok. You can get right back into the next day. Even if you've fallen behind and it's late in the contest, you're still not out of it. Win a 6 play 7.5 point pleaser (for instance) with a 700 to 1 payout and you're not only right back in it, but you probably just won the whole thing.

## Contests Available:

Daily, Weekly, Monthly
